

Dear Executive and Members of the Toronto Professional Firefighters Association:

We write this letter with a heart full of gratitude for all of the Members that stood beside us and supported us as we said goodbye to our Son Ryan Moonlight. We know that it was difficult for you as well and many times there were no words to express your thoughts or ours. You shared your memories with us and we will cherish them as we work through the days ahead.

As we walked and drove by you during the procession we silently thanked you for standing in the cold winter weather to salute and Honor Ryan. He meant the world to so many and it made us proud to be a part of the Fire Fighter Family. Your flowers were beautiful and most appreciated as well as the many cards, notes and phone calls. Thank you for your generous donations for Ella and Landon's trust fund account. This will insure that they have the opportunity to attend College or University.

To Jeff Bruce and Frank Ramagnano your words touched us in so many ways. Thank you both for standing up and volunteering for that difficult job.

Mike Ogle, there are no words to thank you for your role in making sure that every detail was taken care of to make this an incredible tribute to Ryan and our Family. We will be forever grateful.

To each of you that helped Ryan's family, we say thank you. There are too many names to include in this letter. Just know how much it meant to all of us.

Lastly, we would encourage all of you, in Ryan's memory, to start talking about those bad calls. Ryan was an honest, caring, sensitive man that carried his "customers" like flash cards in his head. Each and every one of them remained in his heart. Sadly he suffered from PTSD as a result of it. Ryan was not afraid to talk about it, don't you be either. Seek the help that you need before another Family, your Family, has to bear the loss that we are enduring now. We will continue the fight that Ryan started. We will keep talking about our Families most private feelings in an effort to continue Ryan's battle against PTSD. Stand up and be counted, stand beside us so we do not lose another Great Man and Firefighter

Most Sincerely
Sharon and Bruce Moonlight and Family
